

The 1502 *Bulletin*

Bulletin #16
Spring 2000

General Notice:

The prime rate has been raised from 8.75% to 9.00%. This change affects variable rate SBA 7(a) loans tied to the prime rate. For loans that adjust on the first day of the month, interest must be calculated as of April 1, 2000 using 9.00% as the base rate. For variable rate loans that adjust other than on the first day of the month, the new prime rate is effective on the change date occurring on or after March 22, 2000.

NOTE: If the prime rate remains the same as of April 1, 2000, only then should the 9.00% rate be used for variable rate loans that adjust on calendar quarters. Otherwise the most current prime rate in effect should be used on April 1, 2000.

Specific Advice:

To better assist you with reporting the rate change, an example is provided. In this case, the borrower made a payment on April 15 and the interest period spanned the loan's rate change date on April 1. The payment is reported as two lines on the 1502 for the month ending April 30, 2000.

Sold Loans:

1. The example shown is for a sold loan with a sold rate of Prime + 1.00%.
2. The interest rate reported is the borrower's note rate less the lender's servicing fee of 1.00%.
3. The amount due the secondary market is indicated on two lines in the Total to FTA column.

Unsold Loans:

1. For unsold loans not subject to SBA's fee, do not sum the Guaranteed Portion Interest and Guaranteed Portion Principal columns. The Total to FTA column should reflect \$0.00.
2. For unsold loans subject to SBA's 50 basis point fee, the fee amount should be indicated in the Total to FTA column for each line of data reported.
